2 New water pump in Lviv Theological Seminary (LTS)

The new water pumps were installed and worked. Costs 1200 USD covered by Action Friendship

3 Orphanage Lopatyn (orphanage not visited before)

3.1 Description of the orphanage

Located in Lopatyn 120 km north east of Lviv
Director Vasyl Kuts
e-mail: A1951@i.ua

The orphanage was a combined school and in ternate
The children were nervous or had psychological problems

They came from families which were poor or alcoholised or parents could be in prison
Many had no family. Also there were invalid children

Minutes from travel to Ukraine 2010-01-17 to 20

140 orphans

40 Invalid
5 no parents
30 one parent
65 two parents – drinkers, etc

The children were from 6 years to 16-17 years

What happened after orphanage?

60% of them studied at college
30% started working (carpenters, sewing)
10% got state pension

The orphanage was in relatively good shape

The main building was the former community administration building

A new part was finished last year with new bedrooms for all the children

Our impression was that management was very positive for improvements

There were 53 employees; teachers, ass teachers, others

The orphanage was financed by the government who covered salaries, food 26 hryvnia per child per day (18 NOK per child per day), energy for heating and medicines. Since the financial crises started there was no money for maintenance or new projects

In the past they had lost support from Canada and Norway

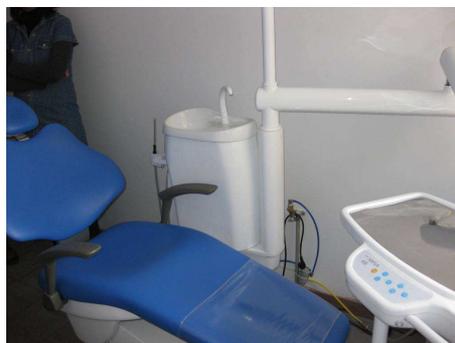

3.2 Actual projects

3.2.1 Finish dentist office

The orphanage had 2 nurses and 1 medical doctor.

They had the dentist chair, unit, compressor and chair for the dentist. They needed vacuum pump, sterilization chamber and all tools for the dentist to do the work (drills, mirrors, amalgam, etc). If the tools were on site, the government would support the dentist salary.

Vladimir and director Vasyl estimate costs and make project plan

Minutes from travel to Ukraine 2010-01-17 to 20

Director Vasyl and the two nurses

3.2.2 Night tables

Only half of the people had night tables. They needed 70 new ones. Vladimir and director Vasyl estimate costs and make project plan

3.2.3 Sport hall

They had started to make a indoor sport hall. The fundamentals were finished. They had no money for finishing the building

4 Project new kitchen in church Borislav

The new kitchen for making food for street children was inspected. They had received 700 USD and made an investment of much more. They had renewed the house outside and inside. Perfect. In addition to our money they used own manpower and also own money. Very good!

Minutes from travel to Ukraine 2010-01-17 to 20

5 Projects Borislav orphanage

5.1 *New doors have been installed*

New doors were installed in 6 sleeping rooms as planned

Old doors to the sleeping rooms

Minutes from travel to Ukraine 2010-01-17 to 20

New doors

Minutes from travel to Ukraine 2010-01-17 to 20

5.2 New projects at Borislav orphanage

When all projects plans are made including project costs we know how much we can do and select projects for 2010

5.2.1 More doors

There are still 6 more doors to be replaced. Vladimir and director Natalie estimate costs and make project plan

5.2.2 More beds

5 new children live in the orphanage. There are 107 children. The new ones have old beds and mattresses. Vladimir and director Natalie estimate costs and make project plan

5.2.3 Medical centre for children from 1 to 6 years

There is need for upgrading a room in the first floor of the in ternate to make a medical centre for children from 1 to 6 years. There are 40 children of that age at the orphanage and also children in the region around the orphanage will use the centre. Qualified medical personnel will be employed. Medical equipment exists. Vladimir and director Natalie estimate costs and make project plan

5.2.4 Renew dining room

Natalie had made plans for upgrading of the dining room which was more than 110 m2. They had materials for upgrading floors, walls and roof, but needed 4000 USD for workers. Vladimir and director Natalie estimate costs and make project plan

6 Projects Scole orphanage

6.1 Project playground

The playground for football, volleyball, basket ball and hand ball was almost finished. Some more asphalt area should be made in March. There were money left for financing the rest of the project

Minutes from travel to Ukraine 2010-01-17 to 20

6.2 New projects at Scole orphanage

When all projects plans are made including project costs we know how much we can do and select projects for 2010

6.2.1 New doors to classrooms and sleeping rooms

There are 22 double doors to classrooms and sleeping rooms which need to be replaced. Vladimir and director Oxana estimate costs and make project plan

6.2.2 New blackboards

They need 10 new black boards to be installed in every classroom. Vladimir and director Oxana estimate costs and make project plan

6.2.3 Upgrade sports hall

At the orphanage there was an indoor sports hall with very bad floor, walls and roof. The windows were already changed and the door will be changed as a part of project 6.2.1. Vladimir and director Oxana estimate costs and make project plan

6.2.4 New floor dining room

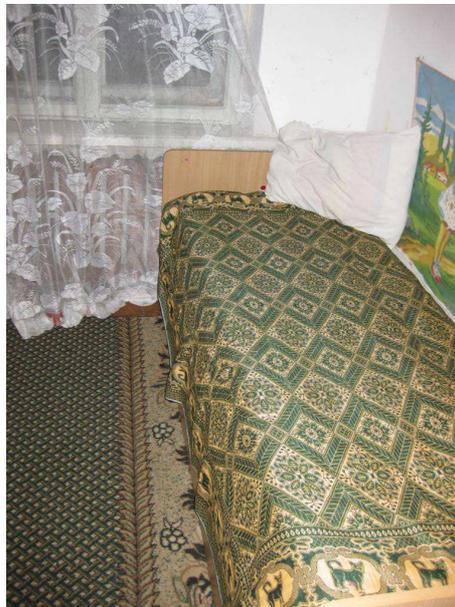

The floor in the dining room was very bad and needed to be replaced. In a former project we have changed the windows in the dining room. Vladimir and director Oxana estimate costs and make project plan

7 Orphanage in Demna Scole

When all projects plans are made including project costs we know how much we can do and select projects for 2010

7.1 Description of Demna orphanage

The orphanage was for 40 children without parents. The 40 children were part of a school for 180 children. 140 were at the school only during daytime. The conditions were difficult and very bad. Very bad windows and the children did not have anything for themselves. A terrible orphanage

7.2 Projects at Demna orphanage

7.2.1 Dentist office in Demna orphanage in Scole

The dentist office ment for Golgata church was not installed and LTS wanted to give the equipment to the Demna orphanage. A room was ready and they had a dentist interested in installing the equipment. At the moment the children were treated sitting on a normal chair. Wladimir organize transfer of the equipment

Minutes from travel to Ukraine 2010-01-17 to 20

7.2.2 New windows

The windows in the whole building should be changed. There are 40-45 windows. Vladimir and director estimate costs and make project plan

8 LTS projects

- Dentist office should be transferred to an orphanage. More information coming
- Summer camps are possible again for 3000 USD from Action Friendship as in 2009
- Action friendship is positive to support 3 students as last year, altogether 6000 USD. The money can go directly to LTS to support daily costs if necessary
- Supported students should report to sponsors by mail every month
